EDUCATION

California State University, Northridge — Northridge, CA
Bachelor of Science in Computer Science — *Aug. 2021 – May 2025*

EXPERIENCE

Freelance Web Developer — Jan. 2023 – Present
Remote — *Remote*
- Designed and deployed responsive, SEO-optimized websites with cross-browser compatibility.
- Translated client goals into scalable full-stack applications using React, Next.js, and Tailwind CSS.
- Managed hosting and CI/CD workflows via Vercel and Netlify; integrated third-party APIs for dynamic content and payments.

Enders Gate QA Intern — Aug. 2024 – Dec. 2024
5HeadGames — *Remote*
- Tested core gameplay mechanics using black-box and regression testing strategies.
- Created reproducible bug reports using Jira and collaborated with devs on triage and resolution.
- Conducted stress testing on beta builds to identify stability and performance issues before launch.

IT Technician Intern — Jun. 2024 – Aug. 2024
UEI College — *Encino, CA*
- Diagnosed and resolved software, hardware, and networking issues across student and faculty devices.
- Reduced IT ticket volume by implementing proactive diagnostics and documenting fixes for re-usability.
- Assisted in improving infrastructure documentation and standard operating procedures.

PROJECTS

GMG Transportation, Inc | *Next.js, React, Tailwind CSS, Stripe API, Google Maps API*
gmgtransportation.com — Jan. 2025 – Present
- Built a responsive vehicle booking platform with Stripe Checkout and real-time pricing logic.
- Leveraged Google Maps APIs for route optimization, address autocomplete, and fare estimation.
- Enhanced user experience with dynamic carousels, contact integration, and intuitive vehicle filtering.

iAqua Aquatics | *React, Tailwind CSS, PayPal Checkout*
iaquaaquatics.com — Jan. 2025 – Present
- Designed an e-commerce site for aquarium products with interactive filtering and modern UI.
- Integrated PayPal Checkout and a dynamic cart system to streamline customer transactions.
- Implemented a category-based filtering system for managing live inventory of fish, plants, and aquarium goods.

Sasna Tsrer | *React, Tailwind CSS, Vercel*
sasnatsrer.vercel.app — Jan. 2025 – Feb. 2025
- Developed a multilingual cultural celebration site featuring dynamic content.
- Engineered reusable layout components with Tailwind CSS for structured, scalable page design.
- Leveraged Next.js static generation and lazy loading for optimized performance and fast page loads.

Techmetrica | *Next.js, React, Node.js, Express.js, MySQL, Docker, Google OAuth*
techmetrica.org — Sep. 2024 – May 2025
- Developed interactive psychology-based games with a Dockerized full-stack architecture.
- Created secure user and admin dashboards with Google OAuth-based authentication system.
- Engineered scalable REST APIs and MySQL schemas to manage player progress and analytics.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Java, Python, C/C++, HTML, CSS
Databases: MySQL, MongoDB
Frameworks & Libraries: React, Next.js, Node.js, Express.js, Tailwind CSS, JavaFX, JUnit
Developer Tools: Git, Docker, Jira, Figma, VS Code, IntelliJ, Visual Studio, Eclipse
Deployment Platforms: Netlify, Vercel
Other: Microsoft Office, Google APIs (Maps, Auth), Stripe API, PayPal Checkout
